E. J. BRENNAN, appointed as special agent June 29, 1908. Was formerly United States Deputy Marshal, member of the Secret Service Division of the Treasury Department, and has been an agent of this Bureau since its organization. He has been engaged on a great variety of investigations, including the most important cases in which we have had to deal, - His work in the sugar fraud cases of New York being particularly worthy of mention. He formerly had charge of the New York Office. He is regarded as probably the best agent in the service of the Bureau for the handling of important cases involving detective work. He recently handled in a very satisfactory manner the dynamiting cases at Indianapolis. His present compensation is \$8.00 per day. His legal residence is Missouri.

Dear Sir,-

Replying to your letter of November 14, 1921, regarding the securing of a proper cover for a confidential informant in the service, I desire that you endeavor to make other arrangements for securing the proper cover for this party.

While it was suggested in my previous correspondence that the cover of a tire salesman be secured for him, of course, this is not imperative, and any other adequate cover which would warrant his traveling about the country will be satisfactory.

Will you kindly give this matter your immediate attention in order that the informant will not be handicapped in his work?

John J. Daly, Special Agent..... 6.00 a day  
John E. Farley, Special Agent..... 5.00 a day  
Wm. H. Duhig, Special Employee & stenog.. \$1200. per yr.

It is recommended that the services of  
Special Agents Roderer and Farley be discontinued  
or they be transferred to other offices where their  
services are needed; that Special Agent John J. Daly  
be designated as Special Agent in Charge; that the  
services of Special Employee and stenographer William H.  
Duhig be continued temporarily at least.

In the event that the work of the district  
becomes very heavy and it becomes necessary to have  
more than one agent we will have from time to time,  
agents from the New York Office go to the Providence  
District, and the Radical or Intelligence work will  
be conducted under cover.

Very truly yours,

Edward J. Brennan  
Division Superintendent.

Dear Sir:

I desire to call your attention to the enclosed report of Agent Leslie for October 10, 1921, concerning Frank Williams, et al.

You will note from this report that a copy was forwarded to Roy C. McHenry, Room 302, Department of Justice, Washington, D.C. I also understand that other Agents of the New York office have forwarded copies of their reports to Mr. McHenry in this manner.

I hardly think that this practice has come to your attention and I am, therefore, advising you of the same with the request that Agents under your supervision be instructed to desist from such action immediately.

The only exception to this defined policy will be upon receipt of specific instructions from me.

Very truly yours,

Director.

Industry, efficiency and General Adaptability: EXCELLENT.  
Special Agent Howe is a man of about 5 ft. 5 or 6 inches, and, while he is, in my opinion, one of the best all around investigators in this bureau, his small stature gives the impression rather of youthfulness, and it was for this reason alone that he was not allowed to argue the case for the Government - U.S. vs. Haywood, et al, before the U.S. Circuit Court of Appeals after having practically prepared the brief in the case.

Mr. Edward J. Brennan,

Dear Sir:

I am in receipt of your letter  
of the 29th ultimo, concerning filing  
cabinets for the Boston Office.

On my return to Washington ( I  
am dictating this on the train) shall be  
very glad indeed to take up the matter.

RE: DISCONTINUANCE OF THE SYRACUSE OFFICE

MR. WILLIAM J. BURNS,  
Director, Bureau of Investigation,  
Department of Justice,  
Washington, D.C.

Dear Sir:

Referring to attached letter concerning the division of territory formerly covered by the Syracuse office (which is to be closed today) copies of which I have forwarded to Special Agents in Charge at Buffalo and Albany, I desire to state at this time that the reason that I recommend this division is in view of the fact that we have an office at Albany New York. Otherwise I would recommend that all the district formerly covered by Syracuse would be attached to and covered by the Buffalo office.

Time may prove that all the agents in the Albany New York office may not be necessary and it may even be possible that the office itself may be discontinued, but right at this time it looks as though the office should be kept open.

Very truly yours,

### RE: DISCONTINUANCE OF THE SYRACUSE OFFICE

MR. WILLIAM J. BURNS,  
Director, Bureau of Investigation,  
Department of Justice,  
Washington, D.C.

Dear Sir:

In further reference to the discontinuance of the Syracuse office which closes today all the records being transferred to the Buffalo office, I desire to make the following recommendations.

That the Counties of:

LEWIS,  
ONEIDA  
MADISON  
CHENANGO  
BROOME

be attached to the Albany District.

That the Counties of:

JEFFERSON  
OSWEGO  
ONONDAGA  
CORTLAND  
CAYUGA  
TOMPKINS  
TIOGA

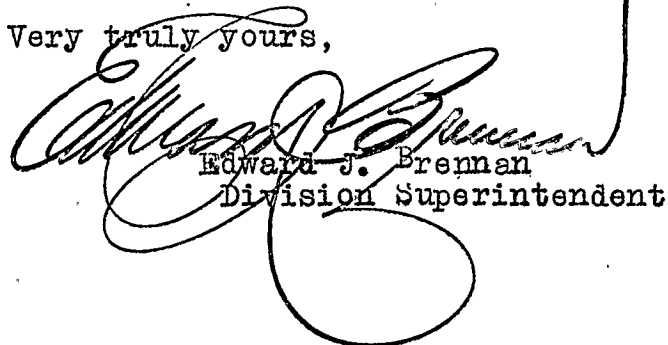

be attached to and covered by the Buffalo office.

I would thank you to please advise me whether or not you approve of this recommendation so that I can take it up with the Agents in Charge of the Albany and Buffalo offices and have them notify the United States Attorneys offices in

in the district formerly covered by the agents working out of Syracuse N.Y. office.

I think that the division that I have made of the Syracuse territory is almost fifty fifty as between the two offices, Buffalo and Albany.

Very truly yours,

*Attention Mr. Russell,*

MR. WILLIAM J. BURNS,  
Director, Bureau of Investigation  
Department of Justice,  
Washington, D.C.

Dear Sir:

I have your letter of Sept. 29th, 1921, initial-  
ed JAR-MLH giving me a list of ten employees in this  
district whose resignations have been requested and  
received at the bureau office at Washington, and also  
mentioning the names of Miss J. L. Lohrmann and  
Miss E. R. Filen, file clerks in the New York office  
whose resignations have been requested on Sept. 19,  
1921, and further advising that when their resignations  
have been submitted that I will be notified of the  
dates that same become effective.

Several days ago, with a view of economy, I re-  
commended discontinuing the services of the above named  
file clerks in the New York office, but I have never  
received any information except that of today in your  
letter of Sept. 29th. Neither one of these employees has  
mentioned or in any way indicated to me that their resig-  
nations have been requested.

I think it would be a very good idea in the future  
for me to be furnished with a carbon copy of the letter  
to employees in this division when requests of this character  
are made.

If you think it necessary for me to take this matter  
up direct with these file clerks I would be very glad to  
hear from you on the subject.

RE: LOSS OF COMMISSION CARDS.

Louis P. Nolan and  
Martin T. Tevlin.

Mr. William J. Burns,  
Director, Bureau of Investigation,  
Department of Justice,  
Washington, D.C.

Dear Sir:

I am enclosing herewith original letter dated Boston, Mass. Sept. 28, 1921, signed Louis P. Nolan Special Agent reporting the loss of commission card which he claims was missed by him on or about Sept. 1st, 1921. Also enclosed is original letter from Martin T. Tevlin, Special Agent of the Boston office reporting loss of his card on or about Sept. 8th.

It appears to me that this information was brought out by the circular letter that I recently addressed to each and every agent in this division calling upon them to furnish, over their own signatures, all government property in their possession (copy of this circular is hereto attached).

I intend in the future to make an inspection with a view of verifying these statements from the agents and to know of my own personal knowledge that they have actually in their possession the government property thus described.

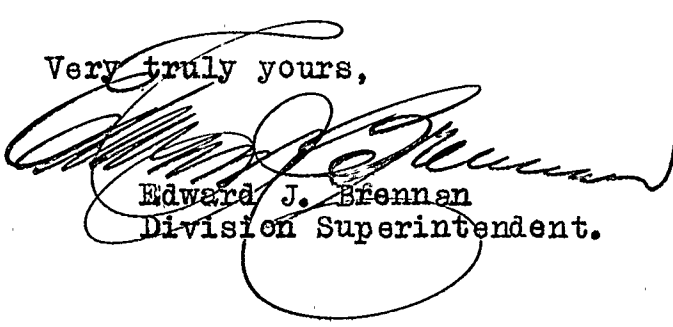

It always has been thoroughly understood in the past that the loss of any government property should be reported immediately to the bureau office at Washington and of course notifying the local office in which the agent is attached and the division superintendent.

I think it would be well in this <sup>case</sup> for you to direct these agents attention to this rule and admonish them to be more careful and adhere strictly to the rules promulgated. There seems to be a disposition on the part of certain agents to become lax in their manner as to observing regulations and some agents who are not now in the service totally ignored

them for some time prior to the termination of their services with the bureau.

Very truly yours,

Edward J. Brennan  
Division Superintendent.

Possible Vio. Sections 37 and 35.

MR. WILLIAM J. BURNS,  
Director, Bureau of Investigation,  
Department of Justice,  
Washington, D.C.

Dear Sir:

Adverting to our long distance telephonic communication concerning the advisability and necessity of Special Agents Flinn and Butterworth proceeding to certain points in Canada on the above entitled investigation, desire to state that I had quite a lengthy conference with these two agents concerning this matter and concluded that it was necessary for them to make the proposed trip particularly in view of the requests made in a letter from Mr. Frank Burke, Manager, Division of Investigation, U. S. Shipping Board to John T. Meehan, Deputy Chief, New York, N.Y. under date of Sept. 7, 1921 (copy of which is hereto attached) wherein it can be readily seen that in attempting to endeavor to secure the information or evidence desired it would be necessary for some person to visit points in Canada where these steamship companies were organized etc.

I am enclosing also a copy of a letter marked "Personal and Confidential" under date of Sept. 19, 1921, which was written to Mr. Burke by these two agents summarizing their report of Sept. 26, 1921, covering the period Sept. 6th. to 17th, 1921.

All these are forwarded to you for your information.

UNITED STATES SHIPPING BOARD

Washington

September 7, 1921.

Mr. John T. Meehan,  
Deputy Chief,  
P.O. Box 32, Wall St. Station,  
New York, N.Y.

My dear Mr. Meehan:

In connection with the Morse investigation I am enclosing for your use two briefs compiled by Assistant Counsel Donehoo. I will call your attention to the one marked No. 1, in which Mr. Donehoo included the steamship "MINNEAPOLIS", as one of the ships involved, but he later learned after he wrote this memorandum that the MINNEAPOLIS was not included. I believe the two memorandums contain probably all the information you will need for the use of the two Department of Justice agents who will be sent to Canada to investigate that angle of the case.

I believe it would be well also to instruct the Department of Justice agents to ascertain of the Traders Steamship Co. and the Travelers Steamship Co. did any actual steamship business; whether they advertised sailings of their ships, and if they collected any prepaid freight and passenger moneys; to get all details concerning the incorporation of these companies, names of the officials, their financial and business standing, and whether they were real business men or dummies. Ascertain, if possible, how much cash each of the companies actually had with which to operate a steamship line. Get all available data of any surveys made by the Canadian authorities of the ships in question, showing their actual value; whether the Canadian Minister of Fisheries and Marine raised any question about change of registry from United States to Canadian; to what extent C. W. Morse or any of the Morse family participated in the organization of either of these companies; date when incorporated and the date when they were actually ready for business; how many voyages were made by each ship and to what ports. Get signed statements and addresses of all material witnesses; what money was paid in on the stock of the companies, and if possible, get abstracts of the stock books. If it is possible, instruct them to get abstracts of the bank accounts of these companies or statements of the treasurers of these companies.

Mr. John T. Meehan -----#2.

The Chairman dispatched a letter today to the Secretary of State, requesting him to advise the Minister of Fisheries and Marine of the Dominion of Canada that two Special Agents would call on him and advise the Minister of their mission. Mr. Hurley of the State Department later advised me by phone that the British Embassy would wire the Minister of Fisheries and Marine, advising of the proposed visit, which will no doubt cause the Minister to give them every assistance, and therefore I think it would be well to have the Special Agents of the Department of Justice go direct to Ottawa and call on the Minister of Fisheries and Marine before taking up any other angle of the investigation. This advice having gone by wire will be there ahead of the agents.

Yours very truly,

PERSONAL and ~~CONFIDENTIAL~~

Frank Burke, Esq.,  
Chief of the Bureau of Investigation,  
United States Shipping Board,  
Washington, D.C.

Dear Mr. Burke:-

I am herewith inclosing a preliminary summary report of the work we have done to date.

I particularly want to call your attention to an affidavit we obtained from George E. Reynolds of New York City, who was a confidant of Moulton and Berry, and who was, later, "Fleeced" by this crowd.

We have about ten persons to question in New York City, but feel that we should wait until we return from Canada. Then we will have more information and will be able to question them more intelligently and closely. On Saturday we asked Mr. Meehan to instruct his agents not to interview these men until we again conferred with him. We feared that we would probably duplicate work or "Spoil" leads if this were done. Mr. Butterworth and I will leave for Canadian points about Wednesday morning and will keep in close touch with you.

When we return to Washington we would like to examine the files of James Ryan, formerly an attorney employed by the Shipping Board. Ryan, it is said, interviewed a number of people in New York who are supposed to have been connected with Morse' transactions; also the files of Edgar Updyke, another attorney formerly connected with the Shipping Board. Updyke was the lawyer who represented the Shipping Board at the meeting of creditors and shippers of the S.S. "St. Paul", and who interrupted Morse each time the latter started to make a statement which might prove damaging to him; he is also the same fellow who is said to have wired the Minister of Fisheries and Marine, Ottawa, Canada, that the latter could place all confidence in Morse' representative. This representative called on the Minister about the time that Morse was endeavoring to have the registry of the boats changed. Special Assistant to the Attorney General Donehoo signed for a file kept by former Assistant United States Attorney DeWitt, New York. Mr. Donehoo probably has

NEW YORK, N. Y.

Sept. 10, 1921.

MR. WILLIAM J. BURNS,  
Director, Bureau of Investigation,  
Department of Justice,  
Washington, D.C.

Dear Sir:

I am transmitting herewith a list of all agents attached to the New York office on Sept. 10, 1921.

Agents G. J. Allegra and James Dunn had been called upon to tender their resignations which order, as I understand, was subsequently rescinded, they being on a special assignment with former Director Flynn working under the direction of Special Assistant Attorney General Crim. This office receives no services from these agents.

I have made a preliminary investigation of all these agents and at this time am unable to find anything derogatory against them. I am of the opinion at this time, that, by intensive training and constant supervision of their work that they will round out into very good agents.

I have marked the names of thirteen agents with an X opposite their names that you may have their records in the personnel files looked up with a view of consulting their formal applications filed for their appointments into this bureau. This might enable you to be advised of some things of interest to the administration of affairs.

Referring to the agents assigned to work in the Intelligence Branch of the New York office, thirteen in number, I have also made a preliminary investigation of these agents and, at this time, I do not see where, with the proper reorganization in that branch, it could be improved upon.

In this connection I wish to say that I desire a personal interview with you concerning how far the bureau desires to extend its activities on these particular kinds of investigations.

It will be noted that there are six agents attached to the New York office who are now and have been for some months and years past engaged entirely on anti trust work. These agents are high class men and very good investigators along this line. Outside of the anti trust work which is directed direct from Washington, this office receives no services whatsoever from these agents.

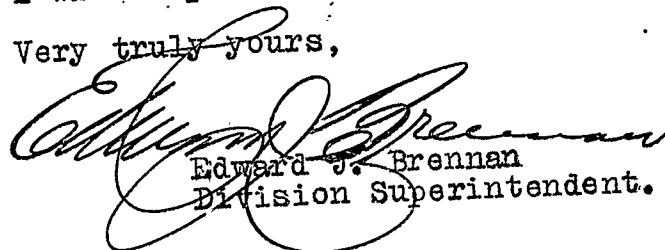

I find here, as I did in Chicago when I first went there, I believe good material but most of it has been misused - some of the good agents being used in the wrong places, and the want of an efficient organization. I do not believe that I will be mistaken when I say that the fault of the New York office heretofore lay with the executives of the local office and not so much with the special agents (especially those who are at present in this office). I have no doubt but what I will be able in a very short time to train, educate, and line up the agents of this office to the highest efficiency.

The main object of this letter to you concerning all these things is to have you look up the applications of the men with the X opposite their names.

It will be noted that on August 31, 1921, there were twenty six agents on general work - this does not include agents engaged in the Intelligence Division. Today, September 10, 1921, in the same classification there are twenty one.

The force of clerks I will report on later.

Very truly yours,

  
Edward J. Brennan  
Division Superintendent.

Dear Sir:

Replying to your communication of the 31st ultimo, in reference to conversation with Agent Scully on the 26th ultimo, this will authorize you to extend the appointment of confidential informant  for sixty days.

b7D

Agent Scully advised the Bureau that he was desirous of having this informant accept a position as a member of the Press Committee of the Communist Party, and requested instructions as to whether or not the Bureau desired this informant to accept this position.

The Bureau would suggest that Agent Scully confer with you in this matter and receive the benefit of your good judgment in respect to same. We of course are always desirous of securing all possible information which can be consistently obtained without agents or informants engaging in provocateur activities.

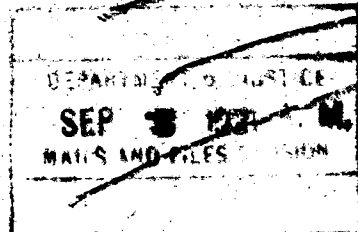

Very truly yours,

  
Director.

Dear Sir:

I am in receipt of your communication of the 27th  
inst., concerning [redacted].

You are correct in your assumption that the inclosed b7D  
letter is the request for the resignation of ~~confidential~~  
informant [redacted].

I have caused to have investigated several reports  
which this informant has submitted and find that the information  
which he has reported has been wholly without foundation. For  
example, in a recent report he advised that the African Blood  
Brotherhood held a meeting at which it had been voted to send  
Arthur Reid to the South to carry on propaganda among the  
negro teachers, preachers and lodges, further that the Communist  
Party is to vote the necessary appropriation for the work  
and will also supply circulars, literature, etc. This in-  
formation was investigated by a strictly ~~confidential~~ source and  
it was found that at the present time, Reid is running a factory  
in Brooklyn, New York, further that he has not attended a  
meeting of the African Blood Brotherhood for over two months.

Several notices have been sent to him by Cyril Briggs, requesting his attendance, but to date he has not appeared. If he does not report in two weeks time, the office which he holds as Post Commander will be declared vacant.

The above information is merely submitted to show that [ ] has been misinforming the Bureau as to the ~~confidential~~ operations of the negro organizations which he has been investigating in the past. Therefore, it is desired that he submit his resignation as requested in the inclosure.
